

Fund Overview

Investment Objective

The investment objective of this Fund is to provide income while focusing on capital preservation and providing some potential for capital growth by investing primarily in a mix of domestic and foreign fixed income-oriented securities and to a lesser extent, domestic and foreign equity securities through a sustainable investment approach. Such investments may be made by the Fund either directly or indirectly through investments in other mutual funds, including ETFs.

Strategy

The manager employs a dynamic asset allocation approach blending top-down and bottom-up assessments seeks to exploit market opportunities through tactical shifts. We believe an optimal risk adjusted and actively managed asset allocation strategy will provide strong returns with efficient diversification and incremental value is added through measured adjustments to asset allocation, driven from changing outlooks for asset class returns and valuations based on quantitative and qualitative factors. In selecting securities in which the Fund invests, we apply sustainable investment strategies.

Portfolio Characteristics

Fixed Income

Modified Duration (years)	6.46
Average Yield to Maturity (%)	4.02

The rate of return anticipated on a bond if it is held until the maturity date expressed as an annual rate. It is assumed that all coupons are reinvested at the same rate.
