Notes on Forward-looking Statements

This report may contain forward-looking statements concerning the Fund, its future performance, its strategies or prospects or about future events or circumstances. Such forward-looking statements include, among others, statements with respect to our beliefs, plans, expectations, estimates and intentions. The use of the expressions “foresee”, “intend”, “anticipate”, “estimate”, “assume”, “believe” and “expect” and other similar terms and expressions indicate forward-looking statements. By their very nature, forward-looking statements imply the use of assumptions and necessarily involve inherent risks and uncertainties. Consequently, there is a significant risk that the explicit or implicit forecasts contained in these forward-looking statements might not materialize or that they may not prove to be accurate in the future. A number of factors could cause future results, conditions or events to differ materially from the objectives, expectations, estimates or intentions expressed in such forward-looking statements. Such differences might be caused by several factors, including changes in Canadian and worldwide economic and financial conditions (in particular interest and exchange rates and the prices of other financial instruments), market trends, new regulatory provisions, competition, changes in technology and the potential impact of conflicts and other international events. The foregoing list of factors is not exhaustive. Before making any investment decision, investors and others relying on our forward-looking statements should carefully consider the foregoing factors and other factors. We caution readers not to rely unduly on these forward-looking statements. We assume no obligation to update forward-looking statements in the light of new information, future events or other circumstances unless applicable legislation so provides.

Addenda Global Diversified Equity Fund

Management Discussion of Fund Performance

Investment Objective and Strategies

The Addenda Global Diversified Equity Fund's (the "Fund") investment objective is to achieve long-term capital growth by investing primarily in a diversified portfolio of domestic and foreign equity securities, Canadian preferred share securities, and to a lesser extent, fixed income and money market instruments and/or cash equivalents through a sustainable investment approach. Such investments may be made by the Fund either directly or indirectly through investments in other mutual funds, including ETFs.

To achieve the Fund's investment objective, the Manager uses strategic asset allocation as the principal investment strategy. The Fund has a target weighting of 0-20% in Fixed Income and Money Market, and a target weighting of 80-100% in Equity.

In addition, when selecting the majority of securities in which the Fund invests, the Manager will integrate environmental, social and governance (ESG) matters along with active stewardship, which covers engagement with issuers and proxy voting.

Risk

There were no significant changes to the investment objectives or strategies that affected the Fund's overall level of risk during the period. There were no changes to the Fund's risk rating during the reporting period. This Fund remains suitable for investors who are seeking long-term growth and who have a low to medium tolerance for risk.

Results of Operations

The Addenda Global Diversified Equity Fund (Series A) returned 17.36% for the year ending December 31, 2024, while the benchmark index, composed of 40% S&P/TSX Composite Index, 30% S&P 500 (CAD), and 30% MSCI EAFE Net (CAD), posted a 23.52% return. The Fund underperformed the benchmark due to weak performance from the underlying asset strategies. Canadian, US and international equity asset classes all lagged versus their respective benchmarks. Asset allocation was a positive source of added value due to an overweight allocation to US equities. Unlike the benchmark, the Fund's performance is calculated after fees and expenses. Please refer to the "Past Performance" section for the returns by series, which may vary because of differences in management fees and expenses.

At the end of December 2024, the Fund was overweight in US equities relative to the benchmark, underweight in international equities and slightly underweight in Canadian equities.

The US Equity allocation underperformed during the year, driven by security selection, with holdings in Consumer Discretionary, Communication Services, Industrials, and Information Technology the most meaningful detractors from performance. Nike (Consumer Discretionary) was one of the largest detractors from performance, with the stock under pressure in 2024 as it looks to execute a turnaround, which included the replacement of their CEO. In terms of sector allocation, Health Care, Communication Services, and Materials were the most meaningful headwinds, partially offset by Energy and Real Estate.

The Climate Transition International Equity allocation underperformed its benchmark. Despite a positive contribution from security selection, the underperformance was driven by the negative impact from sector allocation. Financials, Consumer Staples, and Materials were the largest detracting sectors, partially offset by Industrials and Energy. In terms of security selection, holdings within Financials were the largest detractors, partially offset by Consumer Staples (Coca-Cola Hellenic; Soft Drinks & Non-alcoholic Beverages) and Information Technology (SAP; Application Software), which were among the portfolio's best performing holdings.

The Canadian Climate Transition equity allocation underperformed during the year. Value was added in the Consumer Staples, Energy and Consumer Discretionary sectors, with positions in Loblaw (+49.2%), TC Energy (+51.4%), Cameco (+29.3%) and Dollarama (+47.3%) being particularly strong performers. Our positioning in Technology, Materials and Industrials detracted. Stock selection in Technology was negatively impacted by overweight positions in OpenText and CGI Inc., which underperformed other technology stocks.

Recent Developments

The Federal Reserve (Fed) continued to ease its monetary policy by cutting the target range for its policy rate by 25 basis points (bps) in November and December. The Bank of Canada (BoC) was more aggressive, lowering its policy rate by 50 bps twice. The policy rate closed the quarter at 3.25%. Driven by strong economic data and the Republican victory in the US elections, bond yields followed an upward trend started at the beginning of the quarter. However, the rise in Canadian rates was held back in December by a higher unemployment rate and the announcement of a 25% tariff on Canadian exports to the United States.

The S&P/TSX Composite Index has delivered a very strong +21.7% return year to date, supported by solid gains in the Information Technology (+38%), Financials (+30%), Energy (+24%) and Materials (+21%) sectors. Strength in the Materials sector was driven by gold stocks as gold strongly outperformed other commodities.

The MSCI EAFE Index returned 13.2% in 2024. Sector returns spanned a wide range from Financials (+31.9%) and Communication Services (+21.2%) to Materials (-5.0%) and Energy (-2.4%).

The fund will maintain an overweight exposure to Canadian and US equities offset by a below benchmark allocation to international equity markets. Earnings expectations should remain steady as the year progresses in 2025, which support equity market performance. We remain overweight in US equities based on our positive economic outlook and in Canadian equities due to more attractive valuations.

Related Party Transactions

Addenda Capital Inc. ("Addenda") is the Manager and Portfolio Manager of the Fund. Addenda is controlled by Co-operators Financial Services Limited ("CFSL"), a wholly-owned subsidiary of Co-operators Group Limited. Addenda pays the "Operating Expenses" (defined below) of the Fund other than its "Fund Expenses" (defined below), in exchange for the Fund's payment to the Manager of annual fixed-rate administration fees with respect to each series of the Fund.

Addenda Global Diversified Equity Fund

The administration fees are equal to a percentage of the net asset value of each series of the Fund calculated and paid in the same manner as the Fund's management fees. The Operating Expenses include, but are not limited to: audit and legal fees; transfer agency and recordkeeping costs; accounting and valuation fees; safekeeping and custodial costs; trustee services costs; and the costs of preparing and distributing financial reports, prospectuses, annual information forms, fund facts, continuous disclosure materials and other investors communication.

In addition to administration fees, the Fund shall also pay certain Fund Expenses, namely: taxes (including, without limitation, GST and PST or HST, capital taxes, income taxes and withholding taxes); bank charges, borrowing and interests; termination fees; regulatory filing fees; costs related to the Independent Review Committee ("IRC"); Operating Expenses incurred outside of the normal course of business of the Fund; costs of compliance with newly adopted securities regulations; and costs associated with portfolio transactions, brokerage fees and other trading expenses.

The Fund also pays annual management fees to Addenda as consideration for its services.

For more details on the Fund's fees and expenses, please refer to the "Fees and Expenses" section in the Simplified Prospectus.

Addenda has established the IRC for the Fund in accordance with the requirements of *National Instrument 81-107 - Independent Review Committee for Investment Funds* in order to review conflicts of interest as they relate to investment fund management. The Fund did not rely on an approval, positive recommendation or standing instruction from the Fund's IRC with respect to any related party transactions in the period.

As at December 31, 2024, CFSL held 13,009,439 Fund securities for a value of \$122,904,075, which represented 99.31% of the net asset value of the Fund at that date.

As a result, the Fund may be subject to large investor risk as discussed in the Simplified Prospectus. Addenda manages this risk to reduce the possibility of any adverse effect on the Fund or on its investors, through such processes as requiring advance notice of large redemptions and large transaction fee.

* For the period from March 28, 2022 (beginning of operations) to December 31, 2022.

⁽¹⁾ This information is provided as at the last day of the accounting period shown.

⁽²⁾ Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period.

⁽³⁾ The trading expense ratio represents total commissions and other Fund transaction costs expressed as an annualized percentage of daily average net asset value during the period.

⁽⁴⁾ The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Management Fees

The Fund pays annual management fees to the Fund manager for its management services. The fees are calculated based on a percentage of the Fund's daily net asset value before applicable taxes and are paid on a monthly basis. A portion of the management fees paid by the Fund covers maximum annual trailer fees and sales commissions paid to brokers. The remainder of the management fees primarily covers investment management and

general administration services. The breakdown of major services provided in consideration of the management fees, expressed as an approximate percentage of the management fees is as follows:

	Management Fee (%)	Breakdown of Services	
		Investment Advisory and Other Fees (%)	Trailer Fee (%)
Series A	1.50	33.33	66.67
Series F	0.50	100.00	N/A

Past Performance

Performance data assumes that all distributions of each series of the Fund for the periods shown were reinvested in additional Fund units. However, it does not take into account purchases, redemptions, investments or other optional charges, and returns would be lower if it did.

The past performance of each series of the Fund is not necessarily indicative of future performance.

Annual Performance (%)

* Beginning of operations on March 28, 2022.

These graphs present the annual performance of each series of the Fund for each fiscal year shown and illustrate the evolution of each series of the Fund from one year to the next. These graphs also indicate, in percentage terms, how the value of an investment made on the first day of each fiscal year would have evolved as of the last day of that fiscal year. The last column shows the total performance of each series of the Fund for the interim period. Returns may differ from one series to another for a number of reasons, including if the series was not issued and outstanding for the entire period under review and because of the different levels of management fees and expenses.
